

Ambassador™

Total laptop charging and management cabinet

As an alternative to the mobile storage and charging solutions, we offer the Highly Secure Ambassador™.

Design and Construction

The Ambassador™ has been designed and constructed to meet the ever changing demands of managing the use of mobile ICT with a high standard of security and build quality.

The Ambassador™ includes all of the charging and modular functionality of the Mentor™ range but with two very significant changes:

Static	The units are static (fixed cabinet)
SAMs	Each of the laptop storage bays can be individually double locked using optional Secure Access Modules (SAMs)

The Ambassador™ is built with the same modular design as the Mentor™ range and is available in capacities up to 25 laptops or 50 netbooks per unit.

Each Ambassador™ is installed by our own technicians and its surprisingly small footprint makes it ideal for locations within corridor areas or other areas where floor space is at a premium.

Key Features

- Fully welded steel static cabinet
- Up to 25 laptop or 50 netbook capacity
- Unique modular construction
- Charging options (see below)
- Entry/access options (see below)
- Network capability and alarm optional

Charging Options

LapSafe® offer two types of charging; SmartLine™ and ChargeLine™. In both cases LapSafe's own safe power management system ensures all devices are charged simultaneously in the fastest possible time without overcharging, blowing fuses or tripping circuit breakers.

Other Options

The Ambassador™ static cabinets above are available with a variety of factory fitted options including network connectivity or alarmed security.

Access Options

In addition to the chosen charging modules, the unique Ambassador™ provides the option of Secure Access Modules (SAMs) which offers the user individual locking bays for each device.

The Ambassador™ can also be fitted with high security triple locking outer doors or supplied without doors but fitted with the highly secure Tamperlock™ system.

Door Options

- Standard doors only
- Standard doors plus SAMs
- Tamperlock™ Security plus SAMs
