COVID-19 STATEMENT

LapSafe® Self-Service Solutions Ltd would like to reassure you that we have taken steps as far as possible to protect both our staff and customers from the threat of infection from the Coronavirus: -

Our staff: have been trained to know what to do if they feel ill or are exposed to the virus and the management will ensure that our emergency and response plan will be put into action if an employee is suspected or confirmed with the virus.

We have adopted the approach to keep minimal staff in our offices, and all staff that are able to work from home, will do so.

Our employees will also take necessary steps to protect our customers whilst working on-site by following all the guidance given by the government.

Our offices: Visitors to our offices will be kept at a minimum during the pandemic. Meetings will be carried out using Zoom as much as possible. Our offices will be cleaned regularly throughout the day, sanitise stations are available throughout our premises and all appropriate signage is displayed. Staff will maintain a social distance and wash hands regularly.

Support:

If lockdown prevents us visiting customer site, we will provide remote support to our customers and organise any site visits as soon as we are permitted to visit.

LapSafe®'s products are manufactured in the UK with very few components sourced from overseas. Our procurement team have assessed our stock levels and we have over ordered any necessary parts to ensure that should supply be hindered we will have sufficient stock to cater for most events.

Our products:

To ensure that your products are kept in their best condition and 'Covid-Safe' we have a range of options to protect users from the spread of the virus including our NEW Diplomat™-UV Station.

www.lapsafe.com/covid-19

Please be assured there is no impact on our ability to continue manufacturing our products and deliver our outstanding service.
