

The **ClassBuddy**[™] Desk

Installation Guide

1 of 2

Date: December 2017

Version: 1.1

Tools required

- Screwdriver/Power Driver

Weight

20kg

Step 1: Stand Up

Once unpacked, stand the unit up and ensure you have a clear working space around all sides.

Step 2: Unscrew rear panel

On the rear of the ClassBuddy desk there are 10 screws, unscrew all of these and store the screws and washers in a safe place.

Step 3: Disconnect earth cable

Slowly start to remove the rear panel to gain access to the connected earth cable. The cable should pull off of the rear panel.

Step 4: Load your devices

You are now ready to load your devices ([See Section 4: User Guide](#))

Step 5: Secure rear panel

The earth cable you previously disconnected please reconnect and screw all 10 screws back into place.

Securing to desk (Optional)

It is possible to secure your ClassBuddy Desk down to the Desk. To do so you will require 4 x M4 bolts (not included).

The drilling pattern is 392mm x 338mm but please allow at least 40mm from the rear of the desk.

Unscrew the feet from the ClassBuddy Desk, and secure to the desk through the holes from the feet.

Complete

Your new ClassBuddy Desk should now be successfully installed and ready to use. Please refer to your user guide that supplied with your ClassBuddy Desk for further information and read our health and safety guidance on page 9.
